CS21 Assignment #1, Due Monday, September 7th at noon

Write a Python script in IDLE editor that displays 5 lines of information about you when it is executed.

For example,

```
Susan Sheldon
I am a first year Computer Science major
I am from Boston, MA
I have/do not have programming experience
I love to ski
```

Basically, introduce yourself by writing 5 lines of code in Python

Name our script **about_me.py** and submit it to the blackboard dropbox.

Watch this 30 second video if you want to be sure about your submission –
